•	SECHE CONFROL - U.S. OFFICIALS ONLY	25X1
	b. The thickness of the wall has been anything up to 7 mm; the stipulated thickness was 4.5 mm.	
	c. The tubing has not been round.	
	d. The material has been inferior to ST 3712.	
7.	The China Export Corporation GmbH has made the following recent deliveries of boiler tubing to the railroads:	
	a. 100 tons bought, at \$420 per ton and sold to the railroads at \$397 per ton.*	25 X 1
	b. About 300 tons bought and said to be inferior-quality	25 X 1
8.	These deliveries were made under an agreement by which the China Export Corporation obtained DIR sugar for export against a promise to deliver tubing to the railroads. The sugar was sold for 1.2 million dollars, most of which the corporation has appropriated for its own use.	
9.	The ensuing dispute between the corporation and the railroads was settled at a recent conference. Conferees were Richard Staimer, current deputy managing director of the railroads, Ernst Ramlow of the China Export Corporation, and EDR State Secretary for Material Procurement Erwin Kerber. At this conference Kerber stressed that a quarrel between the corporation and the railroads must be avoided at all costs and promised financial assistance to the corporation.
